

WORK SHOULDN'T HURT

Workplace abuse is more common than you think.

Many workers experience:

- Bullying
- Intimidation
- Retaliation
- Sabotage
- Being pushed out of their jobs

And under current law, most workers have no legal protection unless the abuse is tied to discrimination.

Students are entering this workforce next.

We're building a national Student Network to change that.

Join students who are:

- Raising awareness about workplace abuse
- Organizing campus discussions
- Advocating for safer workplaces
- Supporting workers who experience abuse

Scan the QR code to join the End Workplace Abuse Student Network.

Together, we can create workplaces where people thrive — not environments where abuse is tolerated.
